**Battleground And Tannenbaum Parks**

With rolling vistas, interesting monuments as well as wooded trails, this park will afford the artists plenty of material from which to choose. Stately trees or woodsy light as well as high rolling ground with interesting grasses and flowers. We may also repair to nearby Tannenbaum Park with its interesting revolution era buildings for a different landscape option.

Artist will work on location to capture the fleeting effects that occur in nature. typically the painting is completed in two or three hours before the quality of light changes.

Sessions will begin with a short lecture and demonstration of appropriate techniques. Students will then have the rest of the day to begin and develop their artwork while support will be given
